

Bozmur (March 2010 – Present) West Jordan, UT

Partner/ Web UX-UI

Overview: For the past year I have been working mainly on eCommerce sites. These sites have been focused on the Magento platform. During this time, the goal was to take the clients sites and update them to standards-based HTML/CSS and move them away from tables-based design. While mainly a web shop, I was still able to keep my hand in print by finishing the SLCC alumni magazine, "Associate".

Responsibilities: I am responsible for all front-end decisions. While most of our clients have pre-existing designs they want to maintain, I am able to work on flow and how the user likes to move through the site.

Security National (March 2007 – March 2010) Sandy, UT

Manager / Art Director for Online Content

Overview: Security National Financial Corp. had no cohesive online brand before I was hired. Coming in I redesigned all of the company's websites and created a brand that permeated all divisions of SNFC (mortgage, life insurance, and memorial). During my three years there, I was able to design and maintain over 10 public websites and numerous internal web projects.

Responsibilities: In charge of all web based elements, including: HTML/CSS, Online Brand, and Interface Design, HTML Email, interface with .NET frameworks. I also created various logos and print projects in conjunction with their websites.

NLU Design/DFF Design (March 2003 – March 2010) Draper, UT

Partner/Owner/Creative Director

Overview: Small Graphic/Web Design firm I created with a marketing partner. After a little over two years, DFF Design spun off to do business solo. DFF Design was a small standards-based web design shop that focused on clean design and code.

Clients: NLU Incorporated (Web/Print/Identity), ScreenGuardz (Web/Packaging/Identity/Illustration), Headhound.com (Web/Print), Stone Consulting Group (Identity/Print/CD), Hyde Outdoors (Identity/Web/Print), Max.com (Print/Packaging/Promotional), TruAudio (Web), Helius (Print/Illustration/Flash), RealtyWorld (Flash), Admin Services Group (Web), Wood Crapo (Web), Fabian & Clendenin (Web), Pocket Solutions (Identity/Packaging), Amphibious Zoo (Web), DiveAddicts (Web), Spotted Drum Design (Print).

Fonix Corporation (April 2001 – March 2003) Draper, UT

Senior Graphic Designer

Overview: I was responsible for all print and marketing material that went out to the public. I designed packaging for their retail products and also designed interfaces for the products themselves. Working on a team with a Web Developer and Web Designer, we created both internal and external company websites.

Responsibilities: In charge of all visual elements, including: Print, Packaging, Booths, Identity & Functional Specs, Logos & Trademarks, CD Interfaces & Silkprints, Posters & Banners, and Interface Design.

High Altitude Partners (July 1997 – April 2001) CA & UT

Graphic & Web Designer

Overview: I started out of college at the approximate level of Jr. Designer doing all of HAP Web and Print design. After moving to Orem, I headed up the web/interactive side, creating most of the websites that came out of HAP during that time.

Clients: MetroBook (Web/Print), Novell (Print), PowerQuest (Web/Print), Golds Gym (Web), FranklinCovey (Web/Print), SmartForce (Interactive CD-ROM & PowerPoint with Flash)
